OBJECTIVE

Enthusiastic and motivated student passionate about coding and software development. Interested in building efficient applications and solving real-world problems through programming. Committed to continuously improving technical knowledge and developing innovative software solutions.

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering, <i>Rathinam Technical Campus</i> CGPA: 8.42	2023 – Present Coimbatore
Higher Secondary Certificate (HSC), <i>Kalvi Matriculation Higher Secondary School</i> 73%	2022 – 2023 Dindigul
Secondary School Leaving Certificate (SSLC), <i>Kalvi Matriculation Higher Secondary School</i> 100%	2021 – 2022 Dindigul

INTERNSHIP

IoT & Embedded Systems Intern, <i>Gateway Software Solution Pvt. Ltd.</i> - Completed a 1-month internship and gained hands-on experience in microcontroller programming and IoT communication protocols. - Worked with sensor-based automation systems to understand smart device integration.	Coimbatore
--	------------

TECHNICAL SKILLS

Programming - Java - Data Structures and Algorithms (DSA)	Web Development HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js
Database SQL, MySQL / PostgreSQL	Tools - Arduino IDE - Tinkercad

PROJECTS

IoT-based Smart Energy Management System Designed and implemented a system using sensors and automation to monitor and optimize energy usage.
Food Ordering Website, <i>Full-Stack Project</i> - Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MySQL. Built a food ordering web app with user login, cart, and order placement. - Developed admin panel to manage menu items and customer orders. - Integrated MySQL for storing users, food items, and order data.
NeighborNet AI-Powered Community Platform Developed a full stack community support platform with features like authentication, messaging, and resource sharing using React.js, Node.js, and MongoDB. Collaborated in a team environment using GitHub and responsive web technologies.
Student Learning Management System Web Application Developing a full-stack project that integrates frontend development with backend and database management to create a dynamic and interactive web application. Technologies Used: HTML, CSS, Java, JavaScript, MySQL.

CERTIFICATIONS

- NPTEL - Programming in java (Elite + Silver) - NPTEL - Fuzzy Sets, Logic and Systems & Applications (Elite + Silver)	NPTEL - Introduction to Internet of Things (Elite)	Embedded Systems & IoT - Coursera
